MORE RESISTANCE, LESS WEIGHT

MAGNOLIA panels are made of **SMC** (sheet moulding compound), an extremely light and resistant material used in automotive and health industries.

For all these reasons, our panels have a guarantee of **ten years**.

HIGH-END VERTICAL DÉCOR

- Made of **SMC** (Sheet Moulding Compound).
- Accurately designed for a **perfect finish**.
- **Lighter** than other coatings.
- **Shock and chemicals resistant**. Reaction to B-s2 and d0 fire.
- **Impermeable** material, perfect for wet rooms.
- Great **thermal resistance** (these panels do not contract or expand).
- **Inalterable** to climate changes and UVA rays.
- Suitable for **indoor and outdoor** spaces.

EASY AND QUICK INSTALLATION IN 3 STEPS

MAGNOLIA panels are so easy to install that anybody will be able to do it in 3 easy and quick steps:

- 1. LEVEL**
- 2. GLUE**
- 3. FIT**

1. LEVEL

Check that the surface you are going to cover is firm, smooth, clean and free of other material that may affect the adhesive. Level the panels (having the floor as a reference) to make sure they will be perfectly placed.

2. GLUE

Apply the adhesive at the back of the panel.

3. FIT

Place the panel on the wall and put pressure on it for a few seconds until you make sure it is fixed. You can adapt the panels to any space with a radial arm power saw or a jig saw.

**EASY AND
QUICK
INSTALLATION
IN 3 STEPS**

SO RESISTANT, THAT CAN BE INSTALLED OUTDOORS

MAGNOLIA panels are inalterable to climate changes and UVA rays. For these reasons, MAGNOLIA panels are the only 3D panels suitable for outdoor spaces. They have a unique **anchoring system** to be fixed on outdoor walls.

- Guarantee of 10 years
- 4 units packaging

TECHNICAL
FEATURES

www.msdpannels.com
www.magnoliapannels.com

MAGNOLIA is a brand of MSD panels, a Spanish enterprise specialized in manufacturing decorative panels since 1994.

As a result of our innovation spirit and our knowledge about decorative coatings for walls, MAGNOLIA rises. Magnolia is a modular 3D system for dressing walls with one of the most resistant materials of the market, SMC.

ABOUT MSD PANELS

MSD panels has invested heavily in technology and machines in order to launch MAGNOLIA. Due to this effort, we can guarantee a **great capacity of production and a permanent stock** of the products, reducing the **time of replacement to the minimum.**

On top of that, we can assure our panels count with a **guarantee of ten years.**
